MEMORANDUM FOR THE RECORD

FROM : P/P - C. B. Groce *CB*
SUBJECT : Afghan Media Project Task Force

This is to attest that throughout the period of examination and evaluation by the Afghan Media Project Task Force of the concept papers and grant submissions from the various applicants, I was totally unaware of the membership of Boston University President John Silber on the Presidential Advisory Board for Radio Marti, which is administered by the United States Information Agency. I learned of that membership after the Task Force had reached its unanimous decision to make Boston University the principal grantee for the Afghan Media Project.
